

# HM500 PSS RESPIRATORY KITS

The new HM500 Series is now available in PSS\* format with a new designed packaging.

Wearing respiratory protection is not always comfortable. With long-standing expertise in respiratory protection combined with feedback from multiple workers using masks (VOC/OVOC), Honeywell has redefined the notions of comfort, efficiency, and safety.

Welcome the new Honeywell North® Half Mask 500 (HM500) Series, which is engineered as a lightweight, durably soft half mask with easy operation features. The PSS format is available in non-drop-down version (HM501), it replaces the N5500 Series Half Mask to ensure better comfort and convenience for extended wear.

Replacement bayonet filters are also available in PSS packaging. Fully compatible with the HM500, Honeywell North bayonet filters are quick and easy to attach and lock. A quarter-turn click will give you the confidence that the cartridges are locked securely, and the job will be done safely and productively.

HM500S1PSS - KIT HM500 P3 ALL TYPES OF DUST

## APPLICATIONS

### ALL TYPES OF DUST

**Honeywell**
