

PRODUCT NUMBER: A114200
JUNIOR B COMBI VL
Polyurethane cape

JUNIOR B COMBI-VL is part of the Honeywell **heavy duty air hoods** range designed for use with powered air purifying respirator (PAPR) as Compact Air 200, Compact Air and Compact Air. This model offers protection to the head, the shoulders and the neck. It is equipped with full safety helmet. It is recommended in working area where protection is required for respiratory organs, face and head against harmful particles, mists, gasses and vapors. This system procures air to the user via the supply hose connected between PAPR (*equipped with filters*) and the hood. The filtered airflow enters by the front of the hood and leaves the hood via the face collar or the neck bib.

Honeywell

Overview

Reference Number

A114200

Product Type

Respiratory Protection

Range

Powered Air Purifying Respirators

Line

PAPR with Hoods or Visors

Brand

Honeywell

Brand formerly known as

NORTH

Industry

Product Use

For use with powered air respirators only

- Paint spraying
- Light chemical handlings

Features & Benefits

Feature

GREAT COMFORT AND FITTING

Benefit

Soft washable neck bib with elastic security cord and unique system of spring loaded clamps for disposable visors.

Feature

SECURITY

Benefit

Junior B has a wide field of vision. The disposable visor-system allows removal during operations and protects the main hood visor against damage and/or splashes, and the full face seal ensures a protective overpressure all around the face protecting. Junior B Combi VL is equipped with a full safety helmet which protect against shocks and impacts.

Feature

ADAPTABILITY TO WORK ENVIRONMENT

Benefit

Offers durability, breathability, mechanical properties.

Technical Description

Mask

Headpiece

Hood

Material

Hood in polyurethane - Clamps in stainless steel - Face seal in cotton

Visor Screen Material

In cellulose acetate (CA)

Maintenance

Storage Information

Product must be stored in a clean, dry environment away from any contaminants, dust and direct sunlight.

Store your device in its original box, any carrying case, or in an enclosed wall case

Care Instructions

Controls before use

- Ensure that the system, after being last used, has been cleaned in the correct manner, disinfected end checked in accordance with manufacturer instructions inside user manual.

Donning the Junior B Combi Hood

- Connect the supply hose from the powered air respirator (*Compact Air 200 or Compact Air*) to the rear of the air hood.
- Buckle the belt round the body and switch on the respirator.
- Adjust the head band to the correct length.
- Fit the air hood on the head. With air hoods with face collar, draw the face collar back under the chin, so that the hood is sealed off, and then tighten the belt.

Cleaning

- After each session clean the air hood, using a mixture of water and a mild solution (*part #1779065 EPI U-S*)
- Subsequently, rinse thoroughly with clean water. (Do not use any solvents).
- Using a disinfectant, clean the inner surfaces of the air hood.
- Using a dry cloth, dry all the metal components, so avoiding corrosion
